Carol Stream, Illinois
Premier Room

Committee of the Whole Meeting
May 24, 2021
6:00 pm

Topics:

1. Community Park Master Plan Exercise

All attendees must wear a mask.

MEMORANDUM

PROJECT NAME: Community Park Master Plan
CLIENT: Carol Stream Park District
WIGHT PROJECT NO.: 210068
DATE: May 18, 2021
TO: Commissioners of the Carol Stream Park District
FROM: Patty King, Wight & Company

BACKGROUND:

Gaining a thorough understanding of the resident's needs at Community Park will establish the success of the overall master plan. As outlined in our proposal, gathering input from residents, staff, and the Board is a critical step in gaining this understanding. Following the initial kick-off meeting with staff, Wight gathered relevant site data (zoning, topographic and boundary surveys, GIS Data, wetland inventory, etc.) and have also visited the site to review existing conditions, confirm base information and identify permitting requirements with jurisdictional agencies.

As Wight begins preparation for an online community engagement survey for use in soliciting input from residents, we will also plan for an onsite community engagement event(s). The Staff input meeting was conducted last month and we will now lead the Board through a similar exercise next **Monday, May 24 at 6:00 pm**. Wight has provided 5 basic speaking points to guide the session with the Board; they are:

- What existing amenities should be included, enhanced, or eliminated from the park?
- What future amenities should be included in the Master Plan for the park?
- What programs would you like the District to offer at the park in the future?
- How has the community's park and open space changed since 2019?
- If you or your household does not use Community Park, why not?

Looking forward to seeing you on Monday!
